***One More Painless Night GLU
is produced with TTS technology.**

One More Painless Night GLU allows energy reinforcement in muscles and tissues against negativities and resistance that the body may encounter.

Thus, the body allows itself to remain functioning at its best, providing the highest level of support to itself.

It helps to restore energy, prevent depression, improve physical condition and build strength of the body. It enables the production of healthy blood cells and regulation of blood pressure. It is important for calming the mind and soothing the soul.

Things you should know before using the product
In order for the strip to be effective and to remain on the body for a long time, it is important that the area to be applied is clean, dry and hairless.

GOLD RED KOREAN GINSENG

It helps to restore energy, prevent depression, improve physical condition and build strength of the body. It enables the production of healthy blood cells and regulation of blood pressure. It is important for calming the mind and soothing the soul.

GLUCOSAMINE

It is an amino sugar substance obtained from crustaceans found in the seas.

Glucosamine, which acts as a protector around the joints, acts as part of the substances that make up the tissues.

If there is a lack of glucosamine in the body, the joints are not fully protected and can not remain healthy.

SILVER IONS

Silver ions are powerful and natural antibiotics and also has an effective protective function against infections.

It works as a catalyst, rendering the suckers that unicellular bacteria, viruses and fungi need for their oxygen metabolism inoperable. Micro organisms are destroyed without damaging body chemistry and enzymes. It is the most natural form of internal treatment.

BENEFITS OF PAINLESS NIGHT GLU

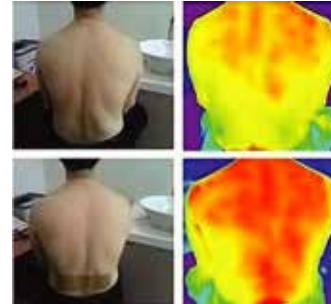

One More Painless Night GLU technology has been developed to support all cells of the human body and provide more energy.

It is known that the main cause of cardiovascular diseases is poor blood circulation.

Our main goals are to establish energy at the best level, increase endurance, high quality concentration, healthy body components, help reduce the stress level, strengthen the immune system, minimize the occurrence of skin problems, and support physical vitality and sexual function.

In the 15-minute experiment, after the use of Painless Night GLU, blood circulation accelerates. Clearly a better blood circulation is provided. WHERE THERE IS BLOOD, THERE IS LIFE

PAINLESS NIGHT GLU

The transdermal therapeutic system (TTS) is a method in which the active substances on a strip to be applied locally on the skin are released in a controlled manner and delivered to the systemic blood circulation through the skin.

Thanks to this method, active substances that lose their effectiveness in the gastrointestinal system when taken by mouth or that are destroyed in the first pass in the liver are absorbed from the skin and mixed into the systemic circulation.
